

The Plan
To
Secure Our Elections
EXECUTIVE BRIEF

2023 & 2024 ELECTIONS

"THANK YOU TO MIKE LINDELL AND HIS ENTIRE TEAM AT CAUSE OF AMERICA AND THE NEW ELECTION CRIME BUREAU FOR BRINGING TOGETHER ELECTION INTEGRITY EXPERTS AND ORGANIZATIONS TO HOLD THE GOP ACCOUNTABLE. WE AT TURNING POINT ACTION ARE IN SOLIDARITY WITH THE COMMUNITY THAT IS KEEPING EYES ON THE LEFT AND IT'S THE MOST CRITICAL THING WE MUST DO TO KEEP ELECTIONS FAIR FOR EVERYONE. WE MUST HAVE COUNTY ELECTIONS OFFICIAL EVERYWHERE READ THIS RESOLUTION."

-CHARLIE KIRK

General Mike Flynn

“In order for our nation, the United States of America, to remain a free nation, America requires a fair election system. Mike Lindell, through his courageous efforts using the Election Crime Bureau and bringing together millions of patriots to stand for free and fair elections, has accomplished that and more.

Mike understands as all Americans do, the sacrosanct privilege we have of voting. This is what makes us all equal in the eyes of each other and under God. I fully support these and other efforts that Mike is pursuing to save our election in order to save our country.”

The Plan Overview

*After the 2020 election was stolen, Mike Lindell became the face of securing election platforms in America. IN JUST 2 YEARS Mike has AMPLIFIED the previously unspoken controversial topic to being mainstream conversation.
For the first time ever, a real national network has been created to save our country.*

Components of The Plan

	<p>Real-time Election Monitoring</p>	<p>The Wireless Monitoring Device to provide REAL time election oversight. We will prove in real time whether voting machines ARE connected to the internet.</p> <p>FrankSocial, an online app that connects average Americans to one another as a tool to report election malfeasance while watching real time accounts of election interference in their own backyard. EVERYONE can participate with a free account.</p>
	<p>Cause of America</p>	<p>CAUSE OF AMERICA (COA); real time election monitoring with the largest grassroots effort in the country. Over 300,000 volunteers on the ground going county by county to change laws, remove machines, teach hand count voting and more.</p>
	<p>Media Platform</p>	<p>FrankSpeech, the fastest growing media hub is sharing REAL news in REAL time. A user friendly site, FRANKSPEECH is now better than ever for the masses.</p>
	<p>Election Crime Bureau</p>	<p>The Election Crime Bureau is the central hub that brings information coming from COA and FrankSocial to one place. The information is parceled out to our experts for cyber crime investigation, or lawfare determination, or to be shared on media</p>

Real-Time Monitoring System

The detection and reporting of election fraud indicators has taken far too long in the past. In order to ensure that the election results indicate the true winner of any contest, this information needs to be available much sooner. That is why the Plan features several resources that will empower citizens with the ability to monitor elections and report on election incidents in real time..

Wireless Monitoring Device (WMD)

FrankSocial

Real-Time Monitoring System

Wireless Monitoring Device (WMD)

The WMD is a self-contained device capable of detecting and identifying on-line devices of all kinds. It is a *passive* collection device, using proprietary hardware and software to perform the detection and report online systems in real time to a central data repository and web-based activity viewer.

What it Does:

- Detects all online systems up to 200 feet of the device location.
- Records IP addresses, device identification, and signal strength for all detected online systems.
- Records the public access name (SSID) of all wireless access points.
- Records the number of devices connected to each access point and the change over time.
- Records time and date of when devices go online and offline.
- Saves all connection data to a secure server for later analysis.

What it Doesn't Do:

- Does not have the capability to interfere with any network functionality.
- Does not have the capability to view or record, inspect, alter, or destroy any actual data being transmitted or received.
- Does not have the capability to view or record, save, or publish any login credentials or security information.

NOTE: *The usage of this device will be fully compliant with [Title 18 USC Section 2511](#) pertaining to the interception and disclosure of wire, oral, or electronic communications.*

The information transmitted by the WMD is analyzed by the Election Crime Bureau Cyber Unit. The Cyber Unit will be able to filter the incoming data to isolate election equipment that is connected to the internet. This information will be displayed on the WMD Master Control Display which can be mirrored on ElectionCrimeBureau.com during elections.

Real-Time Monitoring System

FrankSocial

Citizens monitoring election operations will be able to report election incidents real-time via an updated version of the FrankSocial application. Using FrankSocial, citizens will be able to take photos or video of incidents and post their observations in dedicated post streams organized by hashtags.

Cause of America

SUPPORTING THE GRASSROOTS

The more Mike Lindell spoke out about 2020, he realized that there had to be a place that citizens could go to get information, help, and a way to get involved in their own cities and counties.

Proof of Concept: In late 2021 Mike Lindell met with a group out of Colorado that had developed almost the same model with an established infrastructure for their statewide grassroots election integrity group that Mike had envisioned. The group, The U.S. Election Integrity Plan, was 100% volunteer, non-partisan, independent, and had raised no funding. Within a year the group had accomplished:

- Established an efficient operational infrastructure www.useip.org
- In December of 2020, organized the first hearing in the U.S. calling for the Colorado House Audit Committee to audit the 2020 election.
- Established a network of new and existing groups in nearly every Colorado county to work on election issues on the local level.
- Expanded past Colorado with representation in 33 states.
- Conducted a sophisticated canvassing project that gathered hundreds of voter affidavits. The results of the canvassing generated a report and a video that exposed

1 out of every ten Colorado voters were affected by election irregularities in the 2020 election. This canvassing report is now being used as evidence in at least one court case. It's anticipated more are on the horizon.

- Gained national attention in the press for their work and achievements in Colorado and other states.

Within a month of the first meeting, the Cause of America was established. Its mission was to scale what USEIP had done in Colorado to every state in the U.S.

Now, Cause of America is a one-stop-shop for any individual or group that wants to connect with the network to get involved in local election integrity work. The non-profit is led by a team of 5 and runs on a total staff of 9 people who work virtually. Cause of America is not building an empire, it's the opposite. Its job is to support, advise, share knowledge, resources, training, and connections for self-directed grassroots volunteer groups. www.causeofamerica.org

The Cause of America organization contributes to many of the LLOF legal cases with plaintiffs, intelligence, whistleblowers, press, events, and crowdsourced activities. It creates an evergreen, two-way, win-win, ecosystem between the overall LLOF efforts and the Cause of America grassroots network coalition.

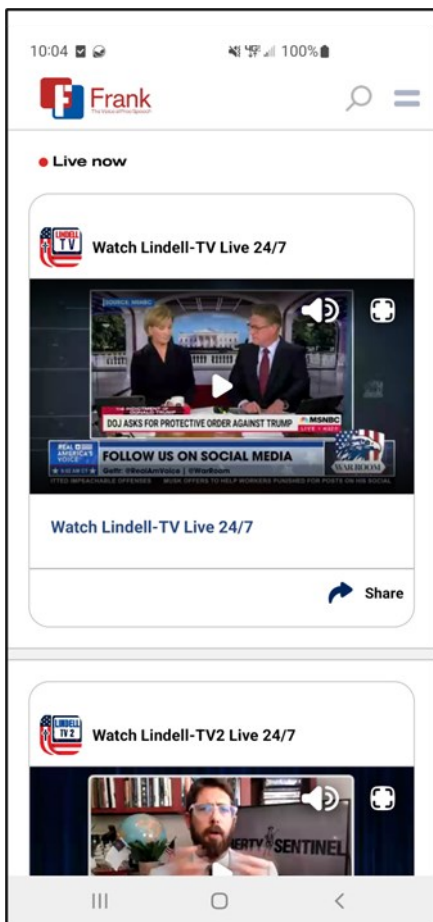

Cause of America App
 Provides grassroots canvassers with powerful access to latest voter status information enabling citizens to identify and resolve voter fraud issues faster than ever.

FrankSpeech

The observations of individual citizens become amplified via the FrankSpeech platform. FrankSpeech provides a powerful means to amplify the reports and messages posted on FrankSocial. The various broadcast channels and podcast channels provide mechanisms to go around mainstream media censorship of important information.

Frankspeech features three livestream broadcast platforms that enable anyone with an internet connection to receive instant notification of news that matters.

Frankspeech features over 120 unique podcast channels that enable targeted messaging to millions of subscribers. The number of podcasts supported on the Frankspeech continues to grow.

Election Crime Bureau

Those individuals and organizations who are engaged in subverting the integrity of our elections on a national scale are working 24/7/365 towards those aims. They are numerous. Their organizations are well-networked. They are well-funded.

In contrast, those individuals and organizations who are engaged in the battle to preserve election integrity on a national scale are outnumbered, not as well-networked, and underfunded. That needs to change.

That's where the Election Crime Bureau fits in.

In much the same way that Elliot Ness assembled a specialized group of patriots immortalized as “the untouchables” to secure our rights, the Election Crime Bureau is assembling specialists to secure our elections. This bureau provides 24/7/365 focus on this mission.

How We Beat Them

The Plan does not rely upon elected officials securing the rights of the governed.

The Plan does not rely upon judges who issue opinions without political bias.

The Plan does not rely upon law enforcement holding those responsible for election crimes accountable.

The Plan relies upon We the People.

The Plan relies upon We the People being informed.

The Plan relies upon We the People taking action.

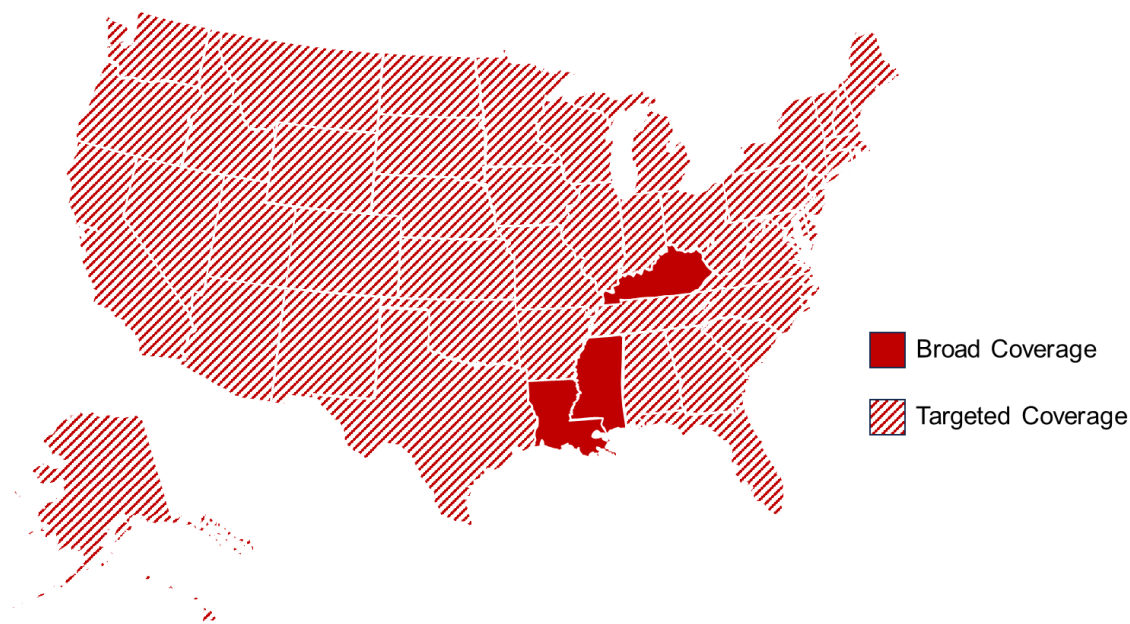

The Plan relies upon We the People holding elected officials, judges, and law enforcement accountable for their actions or inaction.

All it takes is for Americans who love their country to honor the commitment of our Founders by dedicating themselves to a renewed commitment to freedom.

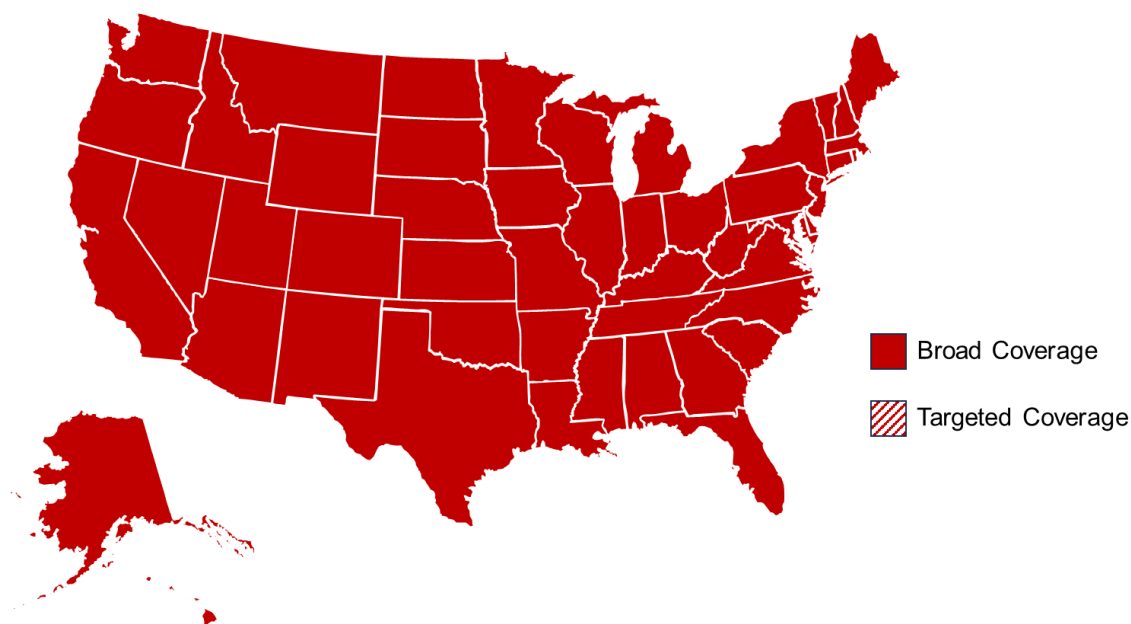

Plan Phases

Phase 1: 2023 Pilot

Phase 2: 2024 Full Deployment

Our Record of Success

LOF NETWORK'S SPONSORSHIP EFFORTS, PROMOTIONAL EFFORTS & ACCOMPLISHMENTS

COURT CASES & LITIGATION

AZ: Multiple Kari Lake lawsuits including Lake v Hobbs

AL: Injunction against use of machines: Hanes, et al v John Merrill as Secretary of State, et al

AZ: Injunction against use of machines: Lake and Finchem v Arizona Secretary of State, Maricopa County

CA: Alexander Haberbush, Shasta County

AZ: Machine certification suit: Golecv Hobbs

Article 4 guarantee clause violations and 14th Amendment due process and equal protection

CO: John Case legal work related to Elbert County

NAACP, League of Women Voters, Mia Familia Vota v USEIP, et al

AZ: Abe Hamadeh election contest

PA: Heather Honey v Locoming County appeal to denial of cast vote records

EXPERTS & INVESTIGATIONS

Mesa County, CO images of Dominion Election Management System (EMS) Server resulted in 3 expert reports exposing machine vulnerabilities

Nationwide voter registration investigation

PA: UOCAVA, CVR investigations by Heather Honey

AZ: Election investigations by Heather Honey

WI: Dan Eastman investigations

MI: FOIA Request funding

MI: Konnech investigations

National Konnech investigations

Jeff O'Donnell Cast Voter Record Analysis

Peter Bernegger investigations

AZ: We the People Arizona Alliance investigations

AZ: Dr. Shiva signature analysis

AZ, GA, PA, FL investigations by Kevin Moncla

WI: Wisconsin Election Commission WISNET unauthorized transmission of election data to NGO

NCOA and Voter Roll comparison for almost all 50 states by Russ Schow

CAUSE OF AMERICA

Create a 50 state network of grassroots leaders

Developed best in class hand count procedures

AL: Grassroots organizations funding

GA: Grassroots organization funding

WI: Grassroots organization funding

Drafting of model legislation

Assisted multiple states with canvassing efforts including reports, walk books, and optimized walking routes

Provided hand count training and cost analyses

Provided digital canvassing tool to grassroots organizations

Provided free, sharable Election Integrity National Library with over 6,500 documents

Provided experts to grassroots groups to help with investigations

IA: Developed software to automatically complete and submit challenge forms

Developed a tool that converts CVR's in XML format allowing review by Jeff O'Donnell

Provided NCOA data for dozens of states

Provided report on ERIC voter roll anomalies

MACHINE ELIMINATION

Promoted and passed RNC Resolution to eliminate machines, require voter ID.

CA: Shasta County votes to defund machines and revert to hand counts

MO: Osage County hand count

AZ: Cochise County hand count

CO: Mesa County Recount of 2021 Municipal Election

AZ: CV2022-00518 Arizona Alliance for Retired Americans suit calling for hand count after 2022 election

AR: Grassroots organizations campaign calling election officials to demand paper ballots

AR: Searcy County voted to go to paper ballots and 100% hand count audit of every election

DE: Hand recounts revealed errors in machine count

GA: Spalding and Paulding County Election Board voted to hand count all ballots prior to certification

ID: 7 of 44 counties conduct full or partial hand counts

IL: Hand counting statutes in place

KY: Comprehensive hand count legislation

LA: Statewide hand count tour. Multiple hand count demonstrations executed.

ME: Every town has the right to use or not use machines

MA: City and town election officials have autonomy to choose to hand count elections. 57 out of 351 have opted in.

MI: MI GOP conducted parallel hand counts of ballots during 2 conventions

MN: Haven and Baldwin Townships passed resolutions to count by hand and by machine

MS: County Elections Handbook allows hand count checks of machine tallies

MT: Hand counts allowed within counties

NH: Multiple towns voted to remove machines

PA: Delaware and York County hand recounts

SD: Hand count of elections is law of land

TX: Paper ballot voting system can be adopted by every county

UT: Over 1,000 Washington County residents have signed hand count petition

VA: Loudoun County Kv Brown challenges machine certification and hand count remedy

COMMUNICATIONS

Documentaries kept election fraud in post-election headlines: Absolute Proof, Absolute Interference, Absolutely 9-0, ScientificProof, Selection Code

Events brought together investigators from all across America: Cyber Symposium, Moment of Truth Summit, Election Summit

FrankSocial application

FrankSpeech application

FrankSpeech platform: 7 livestreams including Lindell TV, over 120 podcasters including Steve Bannon and Emerald Robinson

Nationwide billboard campaigns

WI: Presentations to Wisconsin Senate

WI: Presentations to WI Election Integrity Subcommittee

AZ: Hearings on election issues

LA: Voting System Commission expert testimonies in support of hand counts

Investment and Impact

Phase 1: 2023 Pilot Funding

Real-Time Monitoring System	\$	900,000
WMD Production Cost	\$	800,000
FrankSocial Election App	\$	100,000
Cause of America	\$	732,000
Personnel	\$	332,000
Cause of America App	\$	400,000
FrankSpeech	\$	-
Election Crime Bureau	\$	4,356,000
Management	\$	220,000
Election Crime Unit	\$	2,856,000
Communications Unit	\$	800,000
Financial Unit	\$	80,000
Operations Unit	\$	400,000

Total Phase 1 Budget: \$5,988,000

Phase 2: 2024 Full Deployment Funding

Real-Time Monitoring System	\$	8,300,000
WMD Production Cost	\$	8,000,000
FrankSocial Election App	\$	300,000
Cause of America	\$	2,196,000
Personnel	\$	996,000
Cause of America App	\$	1,200,000
FrankSpeech	\$	-
Election Crime Bureau	\$	9,868,000
Management	\$	260,000
Election Crime Unit	\$	5,808,000
Communications Unit	\$	2,400,000
Financial Unit	\$	200,000
Operations Unit	\$	1,200,000

Total Phase 2 Budget: \$20,364,000
